

envirowise } WORKSHOP 2

Introduction

Step 2: Implementing your SWMP

- Duty of Care, monitoring (processes and waste amounts), training and communication
- Same project as before
- Please use the A1 laminated template sheets to record your answers on
- Feedback session so we will need another spokesperson
- You will be given a completed SWMP for Workshop 3

Feedback Session

Remind us what project you have

3 ways you will monitor duty of care

3 items being monitored, how, frequency and who is involved

Advantages/disadvantages of contractor measuring waste onsite and waste management contractor measuring waste offsite

2 methods of training and 2 methods of communication

2 ways of reviewing implementation of your plan
